## Visual Security Solutions

Make your organization more secure with VeriMark" and HoloMark" Cards.

#### FARGO

## Visual Security™ Solutions

#### Because an ID system is only as secure as the ID itself.

Organizations around the world issue photo ID cards to protect their employees, clients, property

and assets. Unfortunately, the prevalence of color printers and scanners has made counterfeiting ID cards easier than ever. That's why it's critical to customize your cards with a secure feature that's easy to identify, but virtually impossible to alter or duplicate.

Order your blank, customized VeriMark or HoloMark Cards in quantities starting as low as 500.

#### Introducing VeriMark and HoloMark Cards from FARGO.

FARGO VeriMark Cards and HoloMark Cards come with a tamper-resistant, instantly verifiable feature that's permanently embedded on each card. Even better, there's no hardware or software for you to buy! Now, organizations of any size can afford to put

the same layer of protection on their IDs that credit card companies use to prevent fraud. With FARGO's portfolio of Visual Security Solutions, your photo ID cards will be more secure than ever. And that will make your organization, and the people inside it, more secure too.

# Counterfeit IDs are a are you putting on yo

Your custom VeriMark image is stamped on blank standard-sized cards – in your choice of one of eight positions.

Custom VeriMark<sup>™</sup> Card Your custom graphic in a 2D foil

#### For a unique solution that's quick and affordable, FARGO's Custom VeriMark Cards are the way to go.

Utilizing a precise hot stamp process, FARGO embeds your organization's logo, text or graphics onto a silver metallic foil to produce an easy-to-verify, visual counterfeit deterrent. Durable, distinctive and difficult to reproduce or copy, Custom VeriMark Cards are

#### Custom VeriMark Specifics

Standard HoloMark Cards are ideal for organizations as concerned about their budget as they are their security.

### FARGO

### Additional FARGO Visual Security Options

PolyGuard Overlaminates are available with custom or standard holographic images.

#### Custom or Standard Holographic PolyGuard<sup>™</sup> Overlaminate\*

The perfect combination of security and durability. For the ultimate in layered visual security, a custom or standard holographic PolyGuard Overlaminate can be applied to your VeriMark or HoloMark Cards. PolyGuard Overlaminates not only make card designs tamperresistant, they also protect printed cards from wear. \*VeriMark and HoloMark cards require special FARGO Certified Overlaminates.

Standard HoloMark Seals are available in rolls of 500, and increase the security of your existing ID cards.

#### Standard HoloMark<sup>™</sup> Seal

#### The ideal security solution for existing cards.

FARGO's peel-and-stick 3D HoloMark Seals are the quickest, most economical way to add a holographic feature to your existing IDs. If removed from a card, the seals are not reusable, and leave a checkerboard pattern on the spot they were applied to indicate the card has been tampered with.
